

Team Purple: Sales Tracking System

The Buzzword Software Solutions Limited Sales department has requested a software system to track sales leads.

Sales leads in coming from external web sites, existing customers renewal requests, sales department employees, expo sessions and other sources.

Requirements:

- the ability to add/update/delete a sales lead
- the ability to view the list of sales lead by software product
- the ability to view the list of sales leads by input source
- the ability to assign a sale lead to a sales department employee
- a manager is allowed to reassign a sales lead to another employee

Critical Data Fields

- the sales lead source with date and software targeted
- the employee attached to the sales lead if appropriate
- the details of the sales lead including any customer personal details
